

Professional Licensure or Certification Disclosure

Associate of Applied Science in Magnetic Resonance Imaging (MRI) Technology

This disclosure is being made in compliance with federal regulation 34 CFR §668.43

Midwestern Career College's Associate of Applied Science in Magnetic Resonance Imaging (MRI) Technology is programmatically accredited by the Commission on Accreditation of the American Registry of Magnetic Resonance Imaging Technologists (ARMRIT). Mailing address: 2444 NW 8th Street Delray Beach, FL 33445. Phone: 561-450-6880, Email: armrit@msn.com, fax: 561-265-5045. Program Listing: <http://www.armrit.org/schools.php>

The program is also recognized by the American Registry of Radiologic Technologists (ARRT). Program Listing: <https://www.arrt.org/about-the-profession/learn-about-the-profession/recognized-educational-programs>

Completion of the program provides eligibility to sit for the American Registry of Radiologic Technologists (ARRT) and the American Registry of Magnetic Resonance Imaging Technologists (ARMRIT) professional certifications.

- ✓ Midwestern Career College (MCC) has determined that the curriculum of MCC's Associate of Applied Science in Magnetic Resonance Imaging (MRI) Technology program meets the state educational requirements for licensure or certification for MRI Technologists in the following states: Illinois, Indiana, Wisconsin.
- ✓ MCC was unable to determine if completion of MCC's Associate of Applied Science in Magnetic Resonance Imaging (MRI) Technology program meets the state educational requirements for licensure or certification for MRI Technologists in other 47 states and the U.S. territories.

In addition, passing the Venipuncture for Imaging Professionals course offered within the program provides eligibility to sit for Phlebotomy Certification through National Center for Competency Testing (NCCT) and eligibility to sit for the Registered Phlebotomy Technician (RPT) exam through American Medical Technologists (AMT). RPT Exam requires completion of min. 50 venipunctures draws and 10 skin punctures.

Students can read about NCCT Phlebotomy Certification exam eligibility at <https://ncctinc.com/certifications/pt> and

Registered Phlebotomy Technician (RPT) exam through American Medical Technologists (AMT) at <https://www.americanmedtech.org/Phlebotomy-Technician>.

- ✓ Midwestern Career College (MCC) has determined that the curriculum of MCC's Associate of Applied Science in Magnetic Resonance Imaging (MRI) Technology program (Venipuncture for Imaging Professionals course) meets the state educational requirements for licensure or certification for Phlebotomy Technicians in the following states: Illinois, Indiana, Wisconsin.

- ✓ MCC was unable to determine if completion of MCC's Associate of Applied Science in Magnetic Resonance Imaging (MRI) Technology program (Venipuncture for Imaging Professionals course) meets the state educational requirements for licensure or certification for Phlebotomy Technicians in other 47 states and the U.S. territories.

For more information, please contact Danielle E. Dertz, BA, R.T.(MR)(ARRT), Program Director – MRI; 312-236-9000 ext. 1001; ddertz@mccollege.edu

Please read the overview of licensing or certification requirements for MRI Technologists below.

Please be aware that there may be additional professional licensure or certification requirements like professional examinations, continuing education, background checks, years of work experience, fingerprinting requirements, etc. which are not covered by academic program's curriculum. Additional requirements may differ by state. Current and prospective students are strongly encouraged to contact the appropriate licensing or credentialing agency for their location or the state at which they desire to be licensed or certified to seek information and additional guidance.

Midwestern Career College strives to ensure that the information provided on this page is accurate and up to date. However, as professional licensure and certification requirements are subject to change at any time, students are strongly encouraged to regularly check with the certification boards and other credentialing agencies to confirm professional licensure and certification requirements for their program of study.

The links and information below lead to websites and content created by other public and private organizations. These links are provided for the user's convenience only and are not part of the MCC's Professional Licensure or Certification Disclosure.

MRI Technologists – licensing and certification overview

Currently only New Hampshire, New Mexico, North Dakota, Oregon, Tennessee, and West Virginia require MRI technologists to be licensed. Requirements vary by state.

States That Regulate by Modality: <https://www.asrt.org/main/standards-and-regulations/legislation-regulations-and-advocacy/states-that-regulate-by-modality>

Individual State Licensure Information: <https://www.asrt.org/main/standards-and-regulations/legislation-regulations-and-advocacy/individual-state-licensure>

Optional certification is available. Most employers prefer to hire certified MRI Technologists. Certification can be obtained through the American Registry of Radiologic Technicians (ARRT) or the American Registry of Magnetic Resonance Imaging Technologists (ARMRIT).
