- ✓ MCC was unable to determine if completion of MCC's Sterile Processing program meets the state educational requirements for licensure or certification Certified Sterile Processing Technicians in other 47 states and the U.S. territories.

For more information, please contact Brittany Burgess, CSPDT, CST, Program Director, Surgical Technology & Sterile Processing; 312-236-9000 ext. 1074; [bburgess@mccollege.edu](mailto:bburgess@mccollege.edu).

Please be aware that there may be additional professional licensure or certification requirements like professional examinations, continuing education, background checks, years of work experience, fingerprinting requirements, etc. which are not covered by academic program's curriculum. Additional requirements may differ by state. Current and prospective students are strongly encouraged to contact the appropriate licensing or credentialing agency for their location or the state at which they desire to be licensed or certified to seek information and additional guidance.

Midwestern Career College strives to ensure that the information provided on this page is accurate and up to date. However, as professional licensure and certification requirements are subject to change at any time, students are strongly encouraged to regularly check with the certification boards and other credentialing agencies to confirm professional licensure and certification requirements for their program of study.

### **Illinois Sterile Processing Laws and Regulations**

#### **Certification**

The State of Illinois does not require Sterile Processing Technicians to be certified in order to work in the state, but professional certification is strongly preferred and often required by the employers.

As stated on <https://www.iahcsmm.org/membership/advocacy/legislative-map.html>, "The certification and regulations map indicates that the states in blue, including Illinois, Indiana, and Wisconsin have not started the legislative and/or DOH Process.

### **Registration**

Currently, Sterile Processing Technicians are not required to register with the state of Illinois.

### **License**

The State of Illinois does not require Sterile Processing Technicians to have a license in order to work in the state.
